FROM

Gangarig Nyamsuren

Web Developer

Dear Hiring Manager,

This letter is to express my interest in the Junior Developer position at your company. As a highly motivated individual with a passion for technology and a strong desire to learn and grow in the field of software development, I believe I would be a great fit for this role.

Currently, I am working as a service staff, but I have also had experience as a PC assembly technician for 2 years and completed 2 years of study in Information Technology at the university level. Recently, I have also graduated from CodeFactory as a Full Stack Developer.

The opportunity to apply my technical skills and knowledge to the Junior Developer role is exciting to me. My aptitude and determination will allow me to excel in this position. I am particularly interested in either front-end or back-end development and am willing to work hard and learn new technologies to become proficient in either area.

My ability to learn quickly, attention to detail, and being a team player make me a strong candidate for the Junior Developer position. I would welcome the opportunity to contribute to your company's success.

Thank you for considering my application. I look forward to discussing my qualifications further.

Sincerely,

Gangarig Nyamsuren
